

Our sustainability policy statement

This Sustainability Policy Statement looks to complement our quality and environmental policy statements which are found in our Integrated Management System.

Our Group Sustainability Promises for the upcoming years:

1. Ensure the highest possible environmental standards are achieved
2. Guarantee responsible procurement and an ethical supply chain
3. Develop and maintain high material transparency to enable sustainable consumption
4. Innovate sustainable product design which not only enables customers to reduce their environmental impact but also endeavours to provide solutions for the local and global challenges of today
5. Continue to reduce our environmental impact according to technological possibilities
6. Be recognised for positively contributing to society and the environment

For further information on how we will achieve these goals, please visit the Responsibility section of our website.
